

## PGT PSYCHOLOGY

1. Who launched the 90-day campaign 'Azadi Se Antyodaya Tak'?

- (A) Amit Shah
- (B) Piyush Goyal
- (C) Kiren Rijiju
- (D) Giriraj Singh

Correct Answer: (D)

2. Which country signed agreements on training staff and IT cooperation to deepen railway cooperation In Sep 2022?

- (A) Russia-India
- (B) Ukraine-Turkey
- (C) India-Bangladesh
- (D) America-India

Correct Answer: (C)

3. The “Donbas War” is currently being fought in

- (A) Serbia
- (B) Ukraine
- (C) Syria
- (D) Lebanon

Correct Answer: (B)

4. Pedagogy is the study of

- (A) education
- (B) learning process
- (C) teaching methods
- (D) guiding students

Correct Answer: (C)

5. Dyslexia is associated with

- (A) mental disorder
- (B) mathematical disorder
- (C) reading disorder
- (D) behavioural disorder

Correct Answer: (C)

6. Which government organizations will develop guidelines for the education of gifted children?

- (A) NCERT and NCFCS
- (B) NCERT and NCTE
- (C) NCERT and NTA
- (D) NCERT and SCERT

Correct Answer: (B)

7. Humans gather information from the external world about their surroundings through

- (A) Sense organs
- (B) Sensory mechanisms
- (C) Sensations
- (D) Visual sensations

Correct Answer: (A)

8. A negro man going about with a white lady is an example of ..... effect in attention.

- (A) selective
- (B) similar
- (C) contrast
- (D) none of these

Correct Answer: (C)

9. Ego defensive techniques are ..... Strategies to cope up with stress.

- (A) Coping
- (B) Techniques
- (C) Tolerance
- (D) Predictive

Correct Answer: (A)

10. .... is procedure in which individuals are asked to describe in detail about their mental processes and experiences.

- (A) Observation
- (B) Introspection
- (C) Survey
- (D) Experimental

Correct Answer: (B)

11. Read each of the following two statements Assertion (A) and Reason (R) and choose the answer from the codes given below.

Assertion (A): Subliminal perception implies detection of a stimulus with a magnitude that is below the absolute threshold.

Reason (R): Sensory receptors always receive information and that is always perceived.

Codes

- (A) Both Assertion (A) and Reason (R) are correct and (R) is the correct explanation of (A).
- (B) Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion.
- (C) Assertion is true but Reason is false.
- (D) Assertion is false but Reason is true.

Correct Answer: (C)

12. Assertion (A): Projective testing would be of the greatest interest to psychodynamic personality psychologist.

Reason (R): Projective testing is designed to uncover unconscious thoughts, feelings and conflicts.

- (A) Both Assertion (A) and Reason (R) are correct and (R) is the correct explanation of (A).
- (B) Both Assertion and Reason are true, but Reason is not the correct explanation of Assertion.
- (C) Assertion is true but Reason is false.
- (D) Assertion is false but Reason is true.

Correct Answer: (A)

13. To study the amount of study-time in relation to students academic achievement , is an example of \_\_ research.

- (A) Qualitative
- (B) Quantitative
- (C) Co relational
- (D) Survey

Correct Answer: (C)

14. The school/ college with \_\_\_\_\_ structure has academic, library, teaching administrative departments & all members have dual responsibilities.

- (A) Bureaucratic
- (B) Democratic
- (C) Matrix
- (D) Complex

Correct Answer: (C)

15. Match the following

Group A

- (a) Resilience
- (b) Mindfulness
- (c) Positive psychology
- (d) Happiness

Group B

- (1) positive aspects of life
- (2) Increase optimism
- (3) state of awareness
- (4) Overcome hurdles

Option:

- (A) a-1,b-3,c-2,d-4
- (B) a-3,b-1,c-4,d-2
- (C) a-2,b-4,c-1,d-3
- (D) a-4,b-3,c-1,d-2

Correct Answer: (D)

16. The mental condition experienced by an individual when there is hindrance in path of goal is called

- (A) Frustration
- (B) Conflict
- (C) Pressure
- (D) Tension

Correct Answer: (A)

17. \_\_\_\_\_ psychologists specialize in helping patients deal with mental disorders.

- (A) Counseling
- (B) Therapists
- (C) Child
- (D) Clinical

Correct Answer: (D)

18. Fear experienced at extreme level with no real cause is called

- (A) Phobia
- (B) Frustration
- (C) Specific phobia
- (D) Specific fear

Correct Answer: A

19. The scale widely used to measure positive & negative affect is PANAS which is \_\_\_

- (A) Positive & negative affect schedule
- (B) Positive emotion & negative emotion scale
- (C) Positivity & negativity scale
- (D) Positive & negative emotion measure

Correct Answer: (A)

## CASE STUDY BASED QUESTIONS

Read the case given below and answer the questions by choosing the most appropriate option:

This is a story of three students Ruby, Radhika and Shankar who were enrolled in an Undergraduate Psychology Program in a University. Ruby was the admission officer's dream. She was selected for the program as she had perfect entrance test scores, outstanding grades and excellent letters of recommendation. But when it was time for Ruby to start coming up with ideas of her own, she disappointed her professors.

On the other hand, Radhika did not meet the admission officer's expectations. She had good grades but low entrance exam scores. However, her letters of recommendation described her as a creative young woman. She could design and implement research work with minimal guidance at college.

Shankar ranked somewhere in between the two students. He was satisfactory on almost every traditional measure of success. But rather than falling somewhere in the middle of his class at college, Shankar proved to be an outstanding student. His strength lay in the ability to not only adapt well to the demands of his new environment but also to modify the environment to suit his needs.

20. Which of the following statement is NOT TRUE about Radhika's intelligence?

- (A) People high on intelligence quickly find out which information is crucial in a given situation.
- (B) It is also called experiential intelligence.
- (C) It involves modifying the environment to suit the needs.
- (D) It reflects in creative performances.

Correct Answer: (D)
