

UGC NET 2023 Dec Session Exam_Dec 2023

Test Date	13/12/2023
Test Time	3:00 PM - 6:00 PM
Subject	05 Sociology

Section : General Paper

Comprehension:

The following table shows the details about money invested (principal) in a bank at a certain rate of interest for a given period of time by six different male persons A-F, alongwith with the amount received (in ₹). Some values are missing in the table (indicated as '-') that you are expected to calculate if required. Based on the data in the table, answer the questions that follow.

Person-wise Details of Money Invested

Person	Rate of Interest (%)	Time (in years)	Principal (in ₹)	Amount Received (in ₹)
A	6%	-	18000	-
B	5%	-	30000	-
C	-	5	-	29000
D	-	3	45000	-
E	8%	-	20000	-
F	-	2	60000	-

Note: Calculate simple Interest unless specified.

SubQuestion No : 1

Q.1 If the amount received by C is twice the money invested by him, then the amount he will receive after 2 years if he invests the same sum of money in compound interest for 2 years compounded half yearly, is

1. ₹ 21,229.45
2. ₹ 21,929.45
3. ₹ 21,292.45
4. ₹ 21,902.45

Options 1. 1

2. 2
3. 3
4. 4

Question Type : MCQ

Question ID : 22742719331

Option 1 ID : 22742775309

Option 2 ID : 22742775310

Option 3 ID : 22742775311

Option 4 ID : 22742775312

Status : Answered

Chosen Option : 1

Comprehension:

Read the following passage carefully and answer the questions given below:

Saving energy means saving money. Homeowners and renters know this basic fact, but they often don't know what kinds of adjustments they can make in their homes and apartments that will result in savings.

For those willing to spend some time and money to reap long-term energy savings, an energy audit is the way to go. An energy auditor will come into your home and assess its energy efficiency. The auditor will pinpoint areas of your home that use the most energy and offer solutions to lower your energy use and costs. Trained energy auditors know what to look for and can locate a variety of flaws that may be resulting in energy inefficiency, including inadequate insulation, construction flaws, and uneven heat distribution.

There are quicker and less costly measures that can be taken as well. One way to save money is to replace incandescent lights with fluorescents. This can result in a savings of more than 50% on your monthly lighting costs. When it's time to replace old appliances, it's wise to spend a bit more for an energy-efficient model, and be sure that you are taking advantage of energy-saving settings already on your current refrigerator, dishwasher, washing machine, or dryer.

Windows provide another opportunity to cut your energy costs. Caulk old windows that might be leaky to prevent drafts, and choose double-paned windows if you're building an addition or replacing old windows.

Most areas of your home or apartment offer opportunities to save energy and money. The results are significant and are well worth the effort.

SubQuestion No : 46

Q.46 Which of the following ideas is not included in the passage?

1. You can reduce your monthly lighting costs by more than 50% by using fluorescent bulbs instead of incandescent.
2. Double-paned windows can cut energy costs.
3. Energy audit for every home and apartment should be mandatory in India.
4. Some appliances have energy-saving settings.

Options 1. 1

2. 2

3. 3

4. 4

Comprehension:

Read the following Passage and answer the questions

A sociological study was focussed on two villages-one a large settlement of some 5142 people and the other, a small village of only 759 people. Despite their difference in size, both villages exhibit a roughly similar caste and religious structure. Each settlement contains both Hindu and Muslim families which are internally divided into caste or caste-like groupings; and each possesses a dominant caste that tends to control a substantial part of the economic and political resources of the village. The village population is divided into three socio-economic groupings; (1) A group of agriculturists who are of high status and high income that make up the dominant caste, together with certain individuals from other caste who have achieved a better economic status than their fellows. (2) A middle group of less wealthy agriculturists, artisans, and members of the occupational castes; and (3) A group of individual of low status and income made up of lowest order caste and poor agricultural labourers. In both villages there is a small but powerful segment that constitutes elite. This comprises people mostly of high social status and income who are better educated, have urban contacts and play an active part in village and inter-village politics.

SubQuestion No : 141

Q.141

The structure of middle class in the study villages comprised of-

Option 4 ID : **22742775880**

Status : **Answered**

Chosen Option : **2**

Comprehension:

Read the following Passage and answer the questions

A sociological study was focussed on two villages-one a large settlement of some 5142 people and the other, a small village of only 759 people. Despite their difference in size, both villages exhibit a roughly similar caste and religious structure. Each settlement contains both Hindu and Muslim families which are internally divided into caste or caste-like groupings; and each possesses a dominant caste that tends to control a substantial part of the economic and political resources of the village. The village population is divided into three socio-economic groupings; (1) A group of agriculturists who are of high status and high income that make up the dominant caste, together with certain individuals from other caste who have achieved a better economic status than their fellows; (2) A middle group of less wealthy agriculturists, artisans, and members of the occupational castes; and (3) A group of individual of low status and income made up of lowest order caste and poor agricultural labourers. In both villages there is a small but powerful segment that constitutes elite. This comprises people mostly of high social status and income who are better educated, have urban contacts and play an active part in village and inter-village politics.

SubQuestion No : 144**Q.144**

In what ways two villages are similar to each other?

- A. In caste and religious structure
- B. Both religious groups divided in caste/caste like structures.
- C. Both the villages had almost same settlement pattern
- D. Both the villages had a dominant caste.

Choose the correct answer from the options given below:

- 1. A, B and D only
- 2. A, B and C only
- 3. B, C and D only
- 4. A, C and D only

Options

- 1. 1
- 2. 2
- 3. 3
- 4. 4

Comprehension:

Read the following Passage and answer the questions

The term environment implies all the external factors living and non-living, material & non-material – which surround man. However, the newer concept also includes the social and economic conditions under which we live. For better understanding environment can be divided into three components, viz Physical (water, air, soil, housing etc.) Biological (Plants & animal life including viruses, insects, rodents and social (customs, cultures, income, occupation etc.).

The key to man's health lies largely in his environment. In fact, much of man's ill-health can be traced to achieves environmental factors like, poor-housing, presence of animals, air, water & soil pollution etc. Often man is responsible for the pollution of his environment through urbanization, industrialization and other human activities his which is bringing profound social and environment changes all over the world. Hence, to address this problem a combined multi-disciplinary programme of action is needed to achieve a healthy environment.

Hence, two of the changes needed to achieve "Health for all" are concerned with a healthy environment and healthy life style and require initiatives by the individual, the family and the community.

SubQuestion No : 146**Q.146**

The adverse environmental factors which can affect human health are:

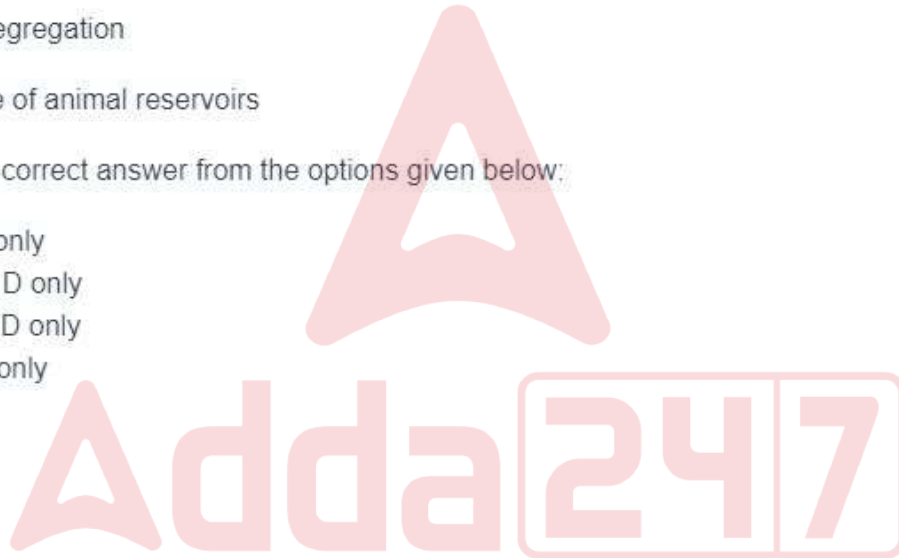

- A. Poor housing conditions
- B. Water Contamination
- C. Waste Segregation
- D. Presence of animal reservoirs

Choose the correct answer from the options given below:

- 1. A and D only
- 2. B, C and D only
- 3. A, B and D only
- 4. C and D only

Options

- 1. 1
- 2. 2
- 3. 3
- 4. 4
