Directions (Q. 6 to 10) Study carefully the table given below and answer the question asked hereunder.

In this table number of six types of toys manufactured by 2 company have been inhaled against the respective years of manufacture.

Numbers in thousand

Year	A	B	C	D	E	F	Total
1984	83	105	72	87	69	98	478
1985	74	112	198	82	85	112	583
1986	68	84	132	163	102	169	565
1987	115	98	104	114	96	184	661
1988	85	106	85	92	108	115	556
1985	106	86	116	86	98	102	596
1996	38	108	118	102	108	86	610

TABLE OF YEAR AND PRODUCT

6. During which of the following years, production of D types of toys was approximately equal to the average production?

Visit examrace.com for free study material, doorsteptutor.com for questions with detailed explanations, and "Examrace" YouTube channel for free videos lectures

- A. 1989
- B. 1990
- C. 1988
- D. 1985

Answer: A

7. Production of A type of toys in 1984 was approximately what percent of the total combined production of A type of toys during the years 1987 and 1988?

- A. 75
- B. 40
- C. 60
- D. 48

Answer: B

8. What was the difference in the total combined production of D and E type of toys in the year 1987 and that of C and D type of toys in the year 1990?

- A. 1000
- B. 1000000
- C. 10000
- D. 20000

Answer: C

9. During which of the following years percentage of total combined production of F type toys w.r.t the total combined production of all type of toys was at the lowest level?

- A. 1987
- B. 1986
- C. 1989
- D. None of these

Answer: D

10. What percent of production of C types of toys approximately declined in 1987 in compares to the year 1986?

- A. 30

Visit examrace.com for free study material, doorsteptutor.com for questions with detailed explanations, and "Examrace" YouTube channel for free videos lectures

B. 25

C. 35

D. 21

Answer: D

11. In the following context, which of the following principle is not different from belief?

A. Preceding-Succeeding relation

B. Acceptability

C. Authenticity

D. Orientation

Answer: B

12. Normally, a thorough research consists of four stages which have been appended below:

1. Preparing scheme of observation

2. Interpreting the Conclusion drawn

3. Determining the Objective

4. Analysing the observations obtained for the above stages, state which of the following option is correct?

A. 3, 1, 4 and 2

B. 1, 4, 3 and 2

C. 1, 2, 3 and 4

D. 3, 4, 1 and 2

Answer: A

13. Listening to the lecture delivered by the features in the classroom is

A. Informative audition

B. Assessed audition

C. Added audition

D. None of the above

Answer: A

14. For conducting study relating to the family size and per capital income in our country, a researcher divides the whole population of the region into different income groups and then

takes random samples from each of the groups. The technique used by him for the sample collection is called:

- A. random sampling
