### SECTION - B

**VI.** Read the following passage carefully and answer the questions that follow. **5×1=5**

The diversity of India is tremendous; it is obvious; it lies on the surface and anybody can see it. It concerns itself with physical appearance as well as with certain mental abilities and traits. There is little in common, outward seeming, between the Pathan of the North-West and the Tamil in

the far South. Their racial stocks are not the same, though there may be common strands running through them; they differ in face and figure, food and clothing and of course, language.... Yet, with all these differences, there is no mistaking the impress of India on the Pathan, as this is obvious on the Tamil.

*Questions :*

1. How is the diversity of India obvious ?
2. The Pathan and the Tamil have common outward features. Write 'True' or 'False'.
3. Are the racial stocks of the Pathan and the Tamil entirely different ?
4. What is common to both the Pathan and the Tamil ?
5. Mention the aspects in which the Pathan and the Tamil differ.

**VII.** Read the following passage carefully and answer the questions that follow :

**5×1=5**

“Comrades”, he said, “I trust that every animal here appreciates the sacrifice that Comrade Napoleon has made in taking this extra work upon himself. Comrades, leadership is not a pleasure! On the contrary, it is a deep and heavy responsibility. No one believes more firmly than Comrade Napoleon that all animals are equal. He would be only too happy to let you make your decisions for yourselves. But sometimes you might make the wrong decisions, Comrades and then where should we be ?” On hearing this, the animals remained silent.

*Questions :*

1. Who is the speaker of the passage ?
2. What does the speaker of the passage trust ?
3. Which is not a “pleasure” according to the speaker ?
4. Who believes more firmly than any other does that all the other animals are equal ?
5. Pick out the word from the passage, which means ‘friend’.

VIII. Study the advertisement and answer the questions that follow : **5×1=5**

**XV.** Read the following passage and make notes :

**1×5=5**

Man cannot manufacture blood as efficiently as women can. Men need more oxygen because they do not breathe as often as women do. But men breathe more deeply and this exposes them into the risk of drawing in more polluted air. Men's bones are larger than women's. Men have broader shoulders and a narrow pelvis. A woman has a wider pelvis that results in a bit of a sway as she walks. Man has a thicker skin than that of a woman. Women have a thin layer of fat just under the skin. This helps women keep warm in winter and cool in summer. Men's fat is distributed differently and they don't have a layer just under their skin.
