# 100 Questions

Que. 1	Which of this increases absorption of iron except		
1.	Aamla		
2. 0	2. Citrus Fruit		
3.	Sprouts		
4. 0	Curd		
Correct Option - 4			
Que. 2	All of of this is seen in anorexia nervosa except		

- 1. Osteoporosis
- 2. Myocardial hypertrophy
- 3. Electrolyte imbalance
- 4. Menorrhagia

Correct Option - 4

Que. 3 Identify the image

- 1. Harmonic Synergy
- 2. Harmonic Scalpel
- 3. Defibrillator
- 4. Medical Handpiece

Correct Option - 2

Que. 4

# Identify the image

- 1. T tube
- 2. Irrigation cannula
- 3. Foley catheter
- 4. Stomach tube

# Correct Option - 3

- 1. Laryngectomy
- 2. Thoracotomy
- 3. Cesarean section
- 4. Thyroidectomy

Correct Option - 4

- 1. 2.5 kg
- 2. 3 kg
- 3. 1.5 kg
- 4. 1 kg

# Correct Option - 1

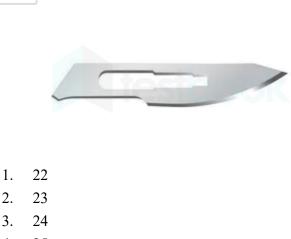

**Que. 7** Copper T 380 is effective for how many years as contraceptive?

- 1. 3 years
- 2. 5 years

- 3. 10 years
- 4. 7 years

Que. 8

Correct Option - 3

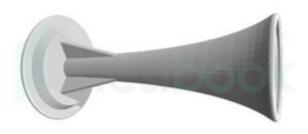

Identify the blade size

4. 25

Correct Option - 2

# Que. 9The following instrument is used to detect FHSName the instrument ?

- 1. outlet forceps
- 2. Sims speculum
- 3. Fetoscope
- 4. Tenaculum Forceps

Correct Option - 3

# **Que. 10** Multiple sclerosis is characterised by:

- 1. Progressive demyelination in the CNS
- 2. Impaired cerebral circulation
- 3. Deficiency of the neurotransmitter dopamine and serotonin
- 4. Deterioration of the spinal column

Correct Option - 1

# Que. 11 Myasthenia gravis characterized by

1. Systemic infection

2. Shock

- 3. Descending weakness
- 4. Ascending weakness
- Correct Option 4

Que. 12	The person states that he is sent by a higher deity [God] he will help us all and guide to the way to
	god

- 1. Delusion of grandiosity
- 2. Delusion of reference
- 3. Delusion of persecution
- 4. Delusion of infidelity

 Que. 13
 Deficiency of which vitamin causes defective bone mineralization disorder called rickets?

 1.
 Vitamin A

 2.
 Vitamin E

 3.
 Vitamin B

Vitamin D
 Vitamin D

Correct Option - 4

Que. 14	Wernicke's encephalopathy is caused by the deficiency of:
1.	Thiamine

- 2. Riboflavin
- 3. Vitamin-D
- 4. Vitamin-A

Correct Option - 1

Que. 15 Which vitamin deficiency may cause night blindness?

- 1. Vitamin K
- 2. Vitamin E
- 3. Vitamin C
- 4. Vitamin A

Correct Option - 4

**Que. 16** Which one of the following anti-tuberculosis drugs cannot be given during pregnancy?

- 1. Rifampicin
- 2. Ethambutol
- 3. Streptomycin
- 4. Isoniazid

Correct Option - 3

**Que. 17** Clinical manifestations of dehydration include all of the following, EXCEPT:

- 1. dry mouth, eye and lips
- 2. headache and light headedness
- 3. small amounts of dark urine

# 4. dry and brittle nails

Correct Option - 4

Que. 18	e. 18 Facial feature of Addison disease include		
1.	Moonlike face		
2. S	2. Skin hyper pigmentation		
3. S <sup>4</sup>	Swollen face		
4. P	Puppy face		
Correct Option - 2			

**Que. 19** Patient with Anorexia nervosa taking food correctly as per her diet plan, but there was no increase in weight observed. What will be nursing intervention for the above patient?

- 1. Observe patient while taking meal and after up to 2 hours
- 2. Increase calorie of food from 1500 to 2000
- 3. Add vitamin tablet to her medications
- 4. Engage them in other activities

Correct Option - 1

Que. 20 The obstetrical assessment of the reveals

- 1. This is her third pregnancy
- 2. Her first child was delivered at 38 weeks
- 3. Her second child was delivered at 34 weeks

Calculate the GTPAL Score

- 1. 31101
- 2. 31102
- 3. 31111
- 4. 32111

Correct Option - 2

Que. 21 A standardized test of gross and fine motor skills for adults

- 1. Glasgow coma scale
- 2. Pain assessment scale
- 3. Denver Developmental Screening Test
- 4. Bruininks Oseretsky Test

Correct Option - 4

Que. 22 At what time is the insulin peak efficacy if nurse administered insulin at 9 am ?

- 1. 9:15 am
- 2. 10:00 am
- 3. 10:30 am
- 4. 12:00 pm

- 1. Transudate
- 2. Inflammation
- 3. Edema
- 4. Both A and B

Que. 24 A nurse is taking care of the patient with fluid electrolyte imbalance, she notices that there is redness around the IV cannula, after touching she found out that there is tenderness and IV flow is also decreased

What is correct interpretation of the following condition and the action

- 1. The finding is a normal after cannulation, continue the IV flow
- 2. The finding is abnormal there is sepsis, stop the IV flow remove cannula
- 3. The finding is abnormal there is phlebitis, stop the IV flow remove cannula
- 4. The finding is abnormal wait for physician to provide you the order

Correct Option - 3

**Que. 25** What is the compression to ventilation ratio for an infant CPR

- 1. 3:1
  - 2. 3:2
  - 3. 2:2
  - 4. 3:3

Correct Option - 3

Que. 26 All are true about Febrile seizure in children except

1. Administer PCM as a part of management of Febrile seizure

- 2. Risk of injury
- 3. Cerebral hypoxia is evident
- 4. Young age is not a major risk factor

Correct Option - 4

Que. 27 Identify the given image below

- 1. Tenia corporis
- 2. Bed sore
- 3. Steam Burn

# 4. Flame burn

# Correct Option - 1

Que. 28 A patient on assessment has found to have hypokalemia, Nurse is assigned to administe		
	of the following intervention is not done?	
1. Intake output chart monitoring		

- 2. Potassium IV solutions should be administered only in well-hydrated patients
- 3. Fast intravenous infusion
- 4. Potassium infusion administration should be through a large, high-flow vein.

Correct Option - 3

**Que. 29** A patient has fallen from the roof top, spinal injury is suspected the emergency intervention in such cases includes ?

- 1. Jaw thrust
- 2. Head tilt chin lift
- 3. Both A and B
- 4. CPR

Correct Option - 1

# **Que. 30** Patient is undergoing blood transfusion and suddenly patient shows complaints of transfusion reaction. What will be the priority nursing intervention?

- 1. Stop the infusion and remove cannula
- 2. Stop the infusion
- 3. Complete the transfusion and administer injection avil
- 4. Complete the transfusion and discard the bag

Correct Option - 2

Oue. 31	In burn	patients	isotonic	fluid is	s given t	o prevent the risk of
Zucor	III Cuill	patiento	100101110	11414 1		

- 1. Renal failure
- 2. In adequate Lung perfusion
- 3. Hypovolumia
- 4. Electrolyte imbalance

Correct Option - 3

# Que. 32 Endotracheal tube formula for uncuffed child

1. (age in years/3.5) + 4

- 2. (age in years/4) + 4
- 3. (age in years/4) + 3.5
- 4. (age in years/3.5) + 3.5

Correct Option - 2

# Que. 33 Myocardial stress test provide the following findings in ECG

- 1. ST segment changes
- 2. QRS complex changes
- 3. P wave depression

# 4. Both A and B

# Correct Option - 4

Que. 34 Which of the following food should be avoided when the patient is on I		
1.	Calcium rich food	
2.	Tyramine containing food	
3.	Gluten rich food	

4. Alanine containing food

Correct Option - 2

**Que. 35** The doctor prescribes a patient to take inhaled beclomethasone and inhaled albuterol for the treatment of asthma.

As a nurse how will you teach patient to take medications properly

- 1. Beclomethasone first, 5 minutes later Albuterol
- 2. Albuterol first, 1 minutes later Beclomethasone
- 3. Beclomethasone first, 1 minutes later Albuterol
- 4. Albuterol first, 5 minutes later Beclomethasone

Correct Option - 4

# Que. 36 A nurse has just performed an NG tube insertion procedure. Most accurate method for confirming the NG tube placement is \_\_\_\_\_

- 1. X ray
- 2. Auscultation
- 3. Observing patient for coughing aspiration of content and pH monitoring
- 4. Dip in a bowel of water

Correct Option - 1

Que. 37 Calculate the total back and one arm burn percentage

- 1. 18 percent
- 2. 9 percent
- 3. 27 percent
- 4. 36 percent

Correct Option - 3

**Que. 38** During peritonitis perforation laparotomy surgery is conducted, Central line is administered in this case what is the most important significance of the central line administration here ?

- 1. CVP Measurement
- 2. Spo2 Measurement
- 3. ABG Analysis
- 4. Fluid administration

Correct Option - 1

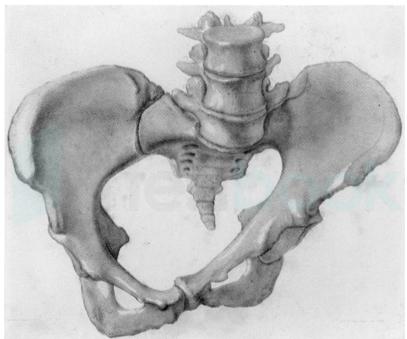

# Que. 39 Black lung disease is caused by caused by

1. Coal dust

2. Cotton dust

- 3. Sugarcane dust
- 4. Asbestos fiber

#### Que. 40 Identify the given image below

- Naegele's pelvis 1.
- 2. Android pelvis
- 3. Gynecoid pelvis
- 4. Anthropoid pelvis

Correct Option - 1

#### Que. 41 Winging of scapula after mastectomy due to damage of which nerve ?

- 1. Long thoracic nerve
- 2. Brachial nerve
- 3. Radial nerve
- 4. Femoral nerve

Correct Option - 1

Que. 4	2 The regular monitoring of blood pressure is under which level of prevention?			
1.	Primordial			
2.	2. Primary			
3.	Secondary			

- 3.
- 4. Tertiary

Que. 43	The drug prescription is 20mcg, Available dose for a drug is 30mcg/15ml
	How much ml is administered

- 10 1.
- 2. 18
- 3. 20

# 4. 25 Correct Option - 1

Que. 44	An Anganwadi worker assess the malnutrition status by:		
1.	Weight for height		
2. H	2. Height for age		
3. V	Weight for age		
4. N	Mid arm circumference		
Correct Option - 3			

Que. 45	Most heat sensitive vaccine is:	
1.	Measles	
2. D	PT	
3. O	OPV	
4. H	Hepatitis B	
Correct Option - 3		

Que. 46	Vaccine that can be freeze and still it does not lose its potency

- 1. MMR
- 2. DPT
- 3. TT
- 4. OPV

Correct Option - 1

0 17	<b>XX71 · 1 · 11 1· 1·</b>	1 1 1	•
Que. 47	Which is the disactivate	ed whole virion	vaccine

- 1. Covaxin
- 2. Covishield
- 3. Moderna
- 4. Sputnik

Correct Option - 1

Que. 48All of the following disease fall under National Vector Born Disease Control Program except1.Filaria

- 2. Chikungunya
- 3. Dengue
- 4. Plague

Que. 49	Which of the following is not included in the surgical safety checklist:
---------	--

- 1. Verify with patient name and procedure to be done.
- 2. Allergy check.
- 3. Medications check.
- 4. Counselling
- Correct Option 4

# Que. 50 Used Needles are discarded in ?

- 1. White puncture proof container
- 2. Red puncture proof container
- 3. Black puncture proof container
- 4. Yellow puncture proof container

Correct Option - 1

# Que. 51 Rat fly causes which of the following disease

- 1. Kala azar
- 2. Typhus
- 3. Sandfly
- 4. Louse

Correct Option - 2

# Que. 52 Effective way to destroy the malaria larva

- 1. Use of kerosene
- 2. Using gambos fish
- 3. Adding chemicals like bleach to the water
- 4. Use of Spirit

Correct Option - 2

Que. 53	In order to avoid the injury to sciatica nerve during intra-muscular administration which site is to
	be avoided

- 1. Ventraogluteal muscle
- 2. Vastus lateralis
- 3. Musculus deltoideus
- 4. Dorsogluteal muscle

Correct Option - 4

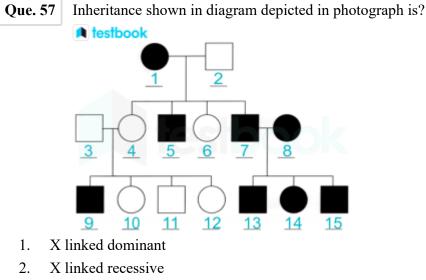

**Que. 54** The amount of elemental iron in one iron tablet for mother is:

- 1. 60 mg
- 2. 60 g
- 3. 50 g
- 4. 50 mg

Correct Option - 1

Que. 5	To assess the pulse in child	is most appropriate site	
1.	Apical		
2.	2. Brachial		
3.	B. Femoral		
4.	Carotid		

- 1. hold only neck
- 2. hold baby's lower part
- 3. hold baby in upright position
- 4. hold baby giving support to whole body

- 3. Autosomal dominant
- 4. Autosomal recessive

# Correct Option - 2

- Tumor of uterus 1.
- 2. Vaginitis chlamydia
- 3. Herniation
- 4. Peptic ulcer
- Correct Option 2

**Oue. 59** Which of the following is a non-absorbable suture

- 1. Polyester
- 2. Vicryl
- 3. Monocryl
- Chromic catgut 4.

- 1. 300 ml
- 2. 500 ml
- 3. 2.5 Liter
- 4. 1.5 Liter

Que. 61	The nurse had a needle stick injury with a hepatitis B infected needle, what is priority nursing action?
1 1	

- 1. Wash puncture site with soap and water
- 2. Start PEP treatment immediately
- 3. Get a doctor appointment
- 4. Collect needle for laboratory check

Correct Option - 1

**Que. 62** Which of the following factors is a common cause of fatty diarrhoea?

- 1. Lactose intolerance
- 2. Celiac disease
- 3. Bacterial and viral infection
- 4. Sucrose intolerance

Correct Option - 2

Que. 63	The client admitted with angina is given a prescription for nitroglycerine. The client should be
	instructed to:-

- 1. Replenish his supply every 3 months
- 2. Take one every 15 minutes if pain occurs
- 3. Leave the medication in brown bottle
- 4. Crush the medication and take with water

Correct Option - 3

# Que. 64 Contraindication of liver biopsy is

- 1. Diabetic condition of the patient
- 2. Decreased Activated Partial Thromboplastin Clotting Time.
- 3. Increased Activated Partial Thromboplastin Clotting Time.
- 4. Immunocompromised patient

# Correct Option - 3

# 1. Progesterone

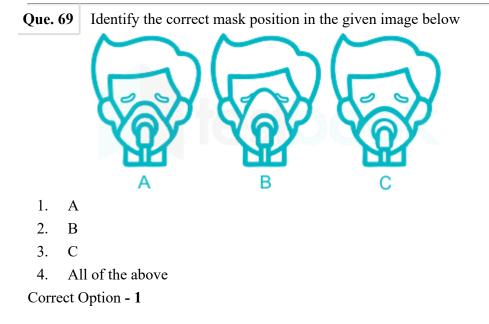

- 2. Thyroxine
- 3. Estrogen
- 4. Follicle stimulating hormone

Que. 66	On auscultation, which finding suggests a right pneumothorax?
1.	Bilateral inspiratory and expiratory crackles.

- 2. Absence of breaths sound in the right thorax.
- 3. Inspiratory wheezes in the right thorax.
- 4. Bilateral pleural friction rub.

Que. 67		Bone marrow aspiration in children
1.		Posterior Superior iliac crest
2.	Pı	oximal tibia
3.	St	ernum
4.	R	ibs
Correct Option - 1		

Que. 6	8 At what time period the child learns about the gender identity		
1.	1 year		
2.	years		
3.	years		
4.	) years		
Corre	Correct Option - 2		

Que. 70 After thyroidectomy carpopedal spasm occur this is the result of:

- 1. Hypercalcemia
- 2. Hypocalcemia
- 3. Hyperkalemia
- 4. Hypokalemia

Correct Option - 2

**Que. 71** Pregnancy induced hypertension is mostly due to

1. Electrolyte imbalance

- 2. Renal disfunction
- 3. Water retention

# 4. Family history

# Correct Option - 3

Que. 72	All are the antihypertensive drug advised to lactating mother except:		
1.	Losartan		
2. L	2. Lisinopril		
3. E	. Enapril		
4. hy	hydrochlorothiazide		
Correct Option - 1			
Que. 73	Patient is on heparin which of the following test required before the administration of the heparin		

Que. 75	ration is on neparin which of the following
1.	aPTT

- 2. PT
- 3. Serum hemoglobin test
- 4. Both A and B

Correct Option - 1

# Que. 74 Most common cause of infant mortality in India is

# 1. Low birth weight

- 2. Complications of labor
- 3. Sepsis
- 4. Congential anomalies

# Correct Option - 1

# **Que. 75** Failure to pass meconium within the first 24 Hours after birth may indicate:

- 1. Abdominal wall defect
- 2. Celiac disease
- 3. Hirschsprung's disease
- 4. Intussusception

Correct Option - 3

**Que. 76** Size of the cannula shown in the image is:

- 2. 16 G
- 3. 20 G
- 4. 22 G

Que. 77 Choose the correct statement for Trousseau's sign.

- 1. Tremor, rigidity, bradykinesia and hypokinesia
- 2. Ischemia induces carpal spasm by inflating the blood pressure cuff
- 3. Twitching of facial muscles when the facial nerve is tapped
- 4. Sudden and severe attacks of pain, swelling, redness and tenderness in the joints.

Correct Option - 2

Que. 78Which of the following electrolyte imbalance is associated with Digoxin toxicity?1.Hypokalemia2.Hypernatremi

- 3. Hypernatremia
- 4. Hypocalcemia

Correct Option - 1

Que. 79	For nasogastric intubation, the length of NG tube should be measured from the:
---------	--

1. nose to the tragus plus nose to the umbilicus

- 2. nose to the sternum
- 3. nose to the umbilicus
- 4. nose to the tragus of the ear plus nose to the sternum

Correct Option - 4

# Que. 80The programme that aimed to train health personnel in basic newborn care and resuscitation is1.Rashtriya Bal Swasthya Karyakram

- 2. Navjat Shishu Suraksha Kaaryakram
- 3. IMNCI
- 4. Home based new born care

Correct Option - 2

 Que. 81
 The surgical removal of the entire contents of the orbit, including the eye balls and eyelids is

 1.
 Evisceration

- 2. Enucleation
- 3. Exenteration
- 4. Laser surgery

Correct Option - 3

# Que. 82 The small intestine does NOT involve the:

- 1. jejunum
- 2. duodenum
- 3. ileum

### 4. caecum

# Correct Option - 4

Que. 83	What should be the duration of suctioning to ventilated patients?
1.	20-25 seconds

- 2. 5-10 seconds
- 3. 15-20 seconds
- 4. 10-15 seconds
- Correct Option 2

# Que. 84 Which is the nucleus of masseteric reflex:

- 1. Superior sensory nucleus of the trigeminal nerve
- 2. Spinal nucleus of trigeminal nerve
- 3. Mesencephalic nucleus of trigeminal nerve
- 4. Dorsal nucleus of vagus nerve

Correct Option - 3

Que. 85	The nurse explains to the mother of a neonate diagnosed with erythroblastosis fetalis, that the
	exchange transfusion is necessary to prevent damage to

- 1. Liver
- 2. Lungs
- 3. Kidneys
- 4. Brain

Correct Option - 4

 Que. 86
 Which of the following should not be provided to the newborn in galactosemia?

 1.
 Milk

 2.
 Starch

 3.
 Gluten

 4.
 Glycogen

4. Glycogen Correct Option - 1

Que. 87 Z-track intramuscular technique is used in administering which kind of medication?

- 1. Dark coloured medication
- 2. Long-term use medication
- 3. Medication more than 5 ml
- 4. Medication that have a long absorption time

Que. 88	Antibody 'A' and Antigen 'B' are present in which blood group?

- 1. A
- 2. B
- 3. AB
- 4. O

**Que. 89** A client is at 35 weeks of gestation and calls the nurse at the clinic and reports a sudden discharge of fluid from the vagina. Based on the data provided, the suspects which of the following conditions?

- 1. Miscarriage
- 2. Preterm labor
- 3. Intrauterine fetal demise
- 4. Premature rupture of the membranes

Correct Option - 4

**Que. 90** An example of positive feedback mechanism in our body is:

- 1. Temperature regulation
- 2. Baroreceptor mechanism
- 3. Oxytocin in childbirth
- 4. Regulation of thyroid hormone

Correct Option - 3

# Que. 91 When is World Patient Safety Day observed?

# 1. 16 September

- 2. 17 September
- 3. 18 September
- 4. 19 September

Correct Option - 2

# Que. 92 What is at the back of a Rs. 2000 note of Mahatma Gandhi (new) series?

- 1. Sun Temple
- 2. Mangalayan
- 3. Red Fort
- 4. Rani Ki Vav

Correct Option - 2

Que. 93 Punjab is also known as the "Land of five rivers". which one is not part of these 5 rivers?

- 1. Sutlej
- 2. Yamuna
- 3. Ravi
- 4. Jhelum

Correct Option - 2

# Que. 94

was the first Vice President of India.

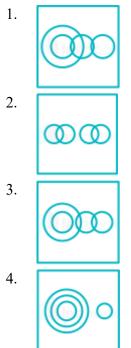

- 1. Dr. S. Radhakrishnan
- 2. Pandit Jawahar Lal Nehru
- 3. Dr. S. D. Sharma
- 4. Dr. Rajendra Prasad

Que. 9	5 The headquarters of RBI is in	
1.	Delhi	
2.	Kanpur	
3.	Mumbai	
4.	Nasik	
Correct Option - 3		

Que. 96	With reference to the invaders in ancient India, which one of the following is the correct
	chronological order?

- 1. Greeks Sakas Kushanas
- 2. Greeks Kushanas Sakas
- 3. Sakas Greeks Kushanas
- 4. Sakas Kushanas Greeks

Que. 97Select the option that correctly represents the relationship among the following:<br/>Animals, Birds, Dog, Pets.

Que. 98	A person wants to make a sum of Rs.16 with 40 coins using 50 paise coins and 25 paise coins. How many coins are there of 25 paise?
1. 2	0
2. 2	4
3. 1	6
4. 2	2
Correct	Option - 3
p-	

**Que. 99** A person buys an article at 7/9 of its value and sells it for 20 percent more than its value. What is his gain percentage?

- 1. 50 percent
- 2. 45.3 percent
- 3. 44.4 percent

4. 54.3 percent Correct Option - 4

 Que. 100
 Which number is missing in the given number series?

 0, 1, 1, 2, 3, 5, 8, 13, 21, ?, 55

 1.
 32

 2.
 38

 3.
 34

 4.
 40

 Correct Option - 3
