

## 125 Questions

---

**Que. 1** The relation between the fetal presenting part and maternal pelvis is known as?

1. Attitude
2. Lie
3. Position
4. Station

**Testbook Solution** Correct Option - 3

---

**Que. 2** Which vaccine can be frozen?

1. BCG
2. polio
3. MMR
4. DPT/DT

**Testbook Solution** Correct Option - 3

---

**Que. 3** Which vaccine given to forms blister and heals by itself and forms permanent scar mark after administration is?

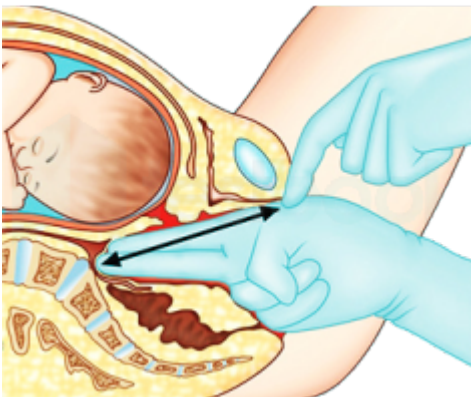

1. BCG
2. MMR
3. DPT/DT
4. Polio

**Testbook Solution** Correct Option - 1

---

**Que. 4** Identify the conjugate measured in the picture?

 testbook

1. Obstetrics conjugate
2. Diagonal conjugate
3. True conjugate
4. None of the above

**Testbook Solution** Correct Option - 1

---

---

**Que. 5** A post LSCS woman passes 400 ml urine in past 24 hours?

1. Oligouria
2. Polyuria
3. Anuria
4. Hematuria

**Testbook Solution** Correct Option - 1

---

**Que. 6** Red color urine is caused by which anti tubercular drug?

1. Isoniazid
2. Rifampicin
3. Streptomycin
4. Etambutol

**Testbook Solution** Correct Option - 2

---

**Que. 7** Visualization of bone in which stage of burn?

1. 1<sup>st</sup> stage
2. 2<sup>nd</sup> stage
3. 3<sup>rd</sup> stage
4. 4<sup>th</sup> stage

**Testbook Solution** Correct Option - 4

---

**Que. 8** Bullet train in India was run with the help of which country?

1. Japan
2. China
3. Russia
4. USA

**Testbook Solution** Correct Option - 1

---

**Que. 9** Identify the procedure being performed in the image?

 testbook

1. Blood sampling for ABG analysis
2. IV Drug Administration
3. Venipuncture
4. All of the above

**Testbook Solution** Correct Option - 1

**Que. 10** The given retractor is used in which of the following surgeries?

 testbook

1. Thyroidectomy
2. Ophthalmic surgeries
3. LSCS
4. Orthopedic surgeries

**Testbook Solution** Correct Option - 3

**Que. 11** Identify the colour of IV cannula used in paediatrics unit?

 testbook

1. Yellow
2. Orange
3. Grey
4. Green

**Testbook Solution** Correct Option - 1

**Que. 12** Identify the size of IV Cannula in Image?

 testbook

1. 14 G
2. 16 G
3. 18 G
4. 20 G

**Testbook Solution** Correct Option - 1

---

**Que. 13** What will you do if you have a needle stick injury of a HIV patient?

1. Give incision to the injury
2. Suck out the blood
3. Squeeze out the blood
4. Wash with soap and water

**Testbook Solution** Correct Option - 4

---

**Que. 14** A 28 year old primigravida comes to the ANC OPD, how many additional Kcal will you recommend?

1. 200 kcal
2. 300 kcal
3. 500 kcal
4. 1000 kcal

**Testbook Solution** Correct Option - 2

---

**Que. 15** Which is the most appropriate nursing action for a 32 years female patient, diagnosed with bipolar affective disorder?

1. Use physical restraints
2. Establish clear boundaries
3. Use chemical restraints
4. Give ECT

**Testbook Solution** Correct Option - 2

---

**Que. 16** The pelvis shape has the poorest prognosis from vaginal delivery?

1. Android
2. Gynecoid
3. Platypelloid
4. Anthropoid

**Testbook Solution** Correct Option - 1

---

**Que. 17** This drug use to?

1. Decrease pain
2. Decrease swelling
3. Decrease secretion
4. Increase secretion

**Testbook Solution** Correct Option - 1

---

**Que. 18** Term 'Gossypiboma' means?

1. Tumor in head
2. Tumor in abdomen
3. During surgery Foreign material left inside the body
4. During surgery accidentally body organ damage inside the body

**Testbook Solution** Correct Option - 3

---

**Que. 19** Pregnant lady with card presentation in what is nursing priority?

1. Give Trendelenburg position
2. Give reverse Trendelenburg position
3. Inform to HCP
4. Gently push the cord

**Testbook Solution** Correct Option - 1

---

**Que. 20** What is the cerebral perfusion pressure (CPP) if BP is 90/60 and ICP is 18?

1. 48 mmHg
2. 65 mmHg
3. 52 mmHg
4. 30 mmHg

**Testbook Solution** Correct Option - 3

---

**Que. 21** Most southern state of India?

1. Karnataka
2. Kerla
3. Tamil Nadu
4. Andhra Pradesh

**Testbook Solution** Correct Option - 3

---

**Que. 22** 3<sup>rd</sup> planet from the sun?

1. Venus
2. Mars
3. Earth
4. Jupiter

**Testbook Solution** Correct Option - 3

---

**Que. 23** Rafale jet come from which country?

1. France
2. Japan
3. China
4. Russia

**Testbook Solution** Correct Option - 1

---

**Que. 24** After remove of NG from patient it discarded in which colour of bag?

1. Yellow
2. Red
3. Black
4. Blue

**Testbook Solution** Correct Option - 2

---

**Que. 25** Electronic City of India?

1. Delhi
2. Chandigarh
3. Bangalore
4. Indore

**Testbook Solution** Correct Option - 3

---

**Que. 26** WHO headquarters is situated at?

1. Geneva
2. Rome
3. Washington
4. Paris

**Testbook Solution** Correct Option - 1

---

**Que. 27** Allergy skin test done with intradermal route only because?

1. Slow absorption of drug
2. Fast absorption of drug
3. ID route less painful

4. ID route less injury to skin

**Testbook Solution** Correct Option - 2

---

**Que. 28** The online seller selling the bag in online at rupee 2000, with already 20% of discount and after placing the order he gives additional 10% discount. So find the actual selling cost of the bag?

1. 1200
2. 1440
3. 1600
4. 1320

**Testbook Solution** Correct Option - 2

---

**Que. 29** After complain of open abdominal surgery. The OT nurse needs to do which of the following activity first before suturing. (give priority answer)

1. Disinfection of OT
2. Change the gown
3. Checking the sponge count & instruments counts before suturing.
4. Clean the instruments

**Testbook Solution** Correct Option - 3

---

**Que. 30** Identify the image given below?

1. Guedel airway
2. Nasopharyngeal airway
3. Trecheostomy tube
4. ET tube

**Testbook Solution** Correct Option - 1

---

**Que. 31** On the evening time in sunlight face to face the A and D where standing. The A person shadow in D right side. Then in which direction does the D standing?

1. West side
2. North side
3. South side
4. East side

**Testbook Solution** Correct Option - 2

---

**Que. 32** Who composed the national anthem?

1. Mahatma gandhi
2. Rabindranath tagore
3. Bankim Chandra Chatterjee

4. Madan Mohan Malviya

**Testbook Solution** Correct Option - 2

---

**Que. 33** What is the unit used for measurement camera image resolution?

1. Megabyte
2. Terabyte
3. Terapixels
4. Megapixels

**Testbook Solution** Correct Option - 4

---

**Que. 34** President of India?

1. Ram Nath Kovind
2. Narendra Modi
3. Rajnath singh
4. Amit shah

**Testbook Solution** Correct Option - 1

---

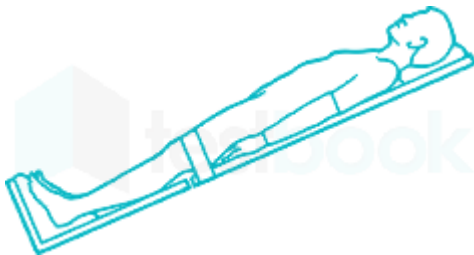

**Que. 35** Oral contraceptive pills (OCP) will be given after how many hours of unprotected sexual intercourse?

1. Within 72 hours
2. Within 12 hours
3. After 96 hours
4. Within 36 hours

**Testbook Solution** Correct Option - 1

---

**Que. 36** Identify the position in a given image?

1. Trendelenburg position
2. Lithotomy position
3. Reverse Trendelenburg position
4. Dorsal recumbent position

**Testbook Solution** Correct Option - 3

---

**Que. 37** Triple test performed at 15-18 weeks of pregnancy. What is the positive test result indicate that the body having down syndrome?

1. high and UE3 tend to be high that of MSAFP is low
2. MSAFP and UE3 tend to be high that of hCG is low
3. MSAFP and UE3 tend to be low that of hCG is high

4. high and UE3 tend to be high that of MSAFP is high

**Testbook Solution** Correct Option - 3

---

**Que. 38** Identify the next number in the sequence.

1, 2, 4, 7, 11, \_\_\_\_\_

1. 14
2. 16
3. 12
4. 10

**Testbook Solution** Correct Option - 2

---

**Que. 39** Identify the name of instruments?

1. Cuscos speculum
2. Sims speculum
3. doyon retractor
4. Deaver retractor

**Testbook Solution** Correct Option - 2

---

**Que. 40** This KUB X-ray showing

1. Bladder carcinom
2. Renal calculi
3. Bladder injury
4. Dialated ureter

**Testbook Solution** Correct Option - 2

---

**Que. 41** The mesh use in which type of surgery?

1. Ceserian section
2. Cardiac surgery
3. Hernia repair surgery
4. Thorasic surgery

**Testbook Solution** Correct Option - 3

---

**Que. 42** What is the immediate first aid management of chemical accident foreign body on the cornea area?

1. Remove foreign body
2. Cover the foreign body
3. Clean the eyes with water/normal saline
4. Give pain management

**Testbook Solution** Correct Option - 3

---

**Que. 43** Which drug decrease the threshold of seizures?

1. Lithium
2. Anticonvulsants
3. Benzodiazepine
4. barbiturate

**Testbook Solution** Correct Option - 2

---

**Que. 44** A type of fever in which after every 24 hours the body temperature comes to normal level is known as?

1. Intermittent fever
2. Continued fever
3. Remittent fever
4. Relapsing fever

**Testbook Solution** Correct Option - 1

---

**Que. 45** 32 week pregnant woman hospitalized with vaginal discharge, and its fibronectin test positive, what kind of labour does it indicate?

1. Post term labour
2. Prolong labour
3. Preterm labour
4. Precipited labour

**Testbook Solution** Correct Option - 3

---

**Que. 46** Your finding emulcificaiton of fat in TPN bag. As a nurse what is your immediate action?

1. Change the new bag
2. Rubing the bag
3. Administer fast
4. Nothing to do

**Testbook Solution** Correct Option - 1

---

**Que. 47** Characteristic of breast cancer?

1. Non moveable fixed irregular mass
2. Non moveable fixed regular mass
3. Moveable fixed irregular mass
4. Moveable fixed regular mass

**Testbook Solution** Correct Option - 1

---

**Que. 48** Which of the following drug administration during post operative period will cause nausea and vomiting?

1. Diclofenac
2. Paracetamol
3. Tramadol
4. Ondansetron

**Testbook Solution** Correct Option - 4

---

**Que. 49** When is the reason to perform naloxone challenge test on the client with opioid abuse?

1. To check reaction of drug
2. To check patient interest
3. To treat opioid abuse
4. To check the level of physical dependence

**Testbook Solution** Correct Option - 4

---

**Que. 50** Which of the following behavioural therapy is effective in treating patient with OCD?

1. Exposure and response prevention
2. Aversion therapy
3. Psychodynamic
4. Cognitive behavioural

**Testbook Solution** Correct Option - 1

---

**Que. 51** The umbilical cord contains at term by?

1. Two arteries two vein
2. Two arteries one vein
3. One artery two vein
4. One artery one vein

**Testbook Solution** Correct Option - 2

---

**Que. 52** Murphy sign seen in which disorder?

1. Appendicitis
2. Cystitis
3. Cholecystitis

4. Renal stone

**Testbook Solution** Correct Option - 3

---

**Que. 53** The client says that his thought is being telecasted in media without his knowledge?

1. Circumstantiality
2. Derailment
3. Thought broadcasting
4. Clang association

**Testbook Solution** Correct Option - 3

---

**Que. 54** Safest exercise advised to pregnant mother?

1. Cycling
2. Swimming
3. Football
4. Racing

**Testbook Solution** Correct Option - 2

---

**Que. 55** Name of the scale for measuring symptoms severity of patients with schizophrenia?

1. NRS
2. PANSS
3. VAS
4. FLACC

**Testbook Solution** Correct Option - 2

---

**Que. 56** Vacuum suction pressure in adult is?

1. 120 mmHg
2. 170 mmHg
3. 80 mmHg
4. 60 mmHg

**Testbook Solution** Correct Option - 1

---

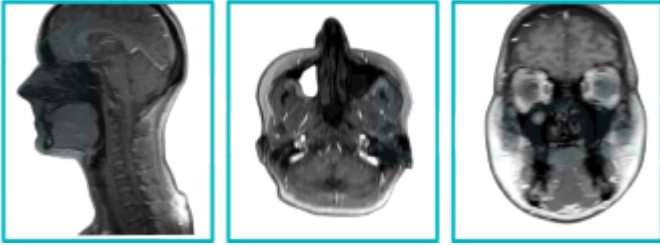

**Que. 57** After thoracentesis patient to give position?

1. Side lying position with unaffected side down
2. Side lying position with affected side down
3. Prone position
4. Supine position

**Testbook Solution** Correct Option - 1

---

**Que. 58** Identify the image of MRI scan for which body organ?

1. Abdomen
2. face
3. head
4. Pelvis

**Testbook Solution** Correct Option - 2

---

**Que. 59** Oxytocin is mainly involved in which of the following functions ?

1. Motor skills
2. Childbirth and lactation
3. Growth and mental ability
4. Regulation of blood pressure

**Testbook Solution** Correct Option - 2

---

**Que. 60** which of the following is NOT related to MMR vaccine?

1. Rubella
2. Measles
3. Rickets
4. Mumps

**Testbook Solution** Correct Option - 3

---

**Que. 61** who among the following devised the autoclave used for sterilization?

1. Charles Chamberland
2. Robert Koch
3. Edward Jenner
4. Anton van Leeuwenhoek

**Testbook Solution** Correct Option - 1

---

**Que. 62** widal, a serological test, is used to detect the presence of which of the following pathogenic microorganisms?

1. E coli
2. Mycobacterium tuberculosis
3. Haemophilus influenzae
4. Salmonella typhi

**Testbook Solution** Correct Option - 4

---

**Que. 63** The causative agent of Lyme disease is:

1. Rickettsia prowazekii
2. Alphavirus
3. Borrelia burgdorferi
4. Trypanosoma brucei gambiense

**Testbook Solution** Correct Option - 3

---

**Que. 64** India is having rupees at the same way united states currency?

1. Euro
2. Dollar
3. Taka
4. Pound

**Testbook Solution** Correct Option - 2

---

**Que. 65** Which of the following microorganisms causes gonorrhea?

1. Stylus gonorrhoeae
2. Streptococcus pneumoniae
3. Stereotyist gonorrhoeae
4. Neisseria gonorrhoeae

**Testbook Solution** Correct Option - 4

---

**Que. 66** Type I hypersensitivity is mediated by

1. IgG
2. IgE
3. IgM
4. IgA

**Testbook Solution** Correct Option - 2

---

**Que. 67** Which of the following is true about IgM?

1. It is not produced by vertebrates
2. It forms the initial immune response
3. It is not an isotypes of antibody
4. It is the smallest antibody

**Testbook Solution** Correct Option - 2

---

**Que. 68** Who is considered as the father of sociology?

1. Auguste Comte
2. Maclver
3. Emile Durkheim
4. Kingsley Davis

**Testbook Solution** Correct Option - 1

---

---

**Que. 69** Following death, the subjective response surviving experienced by the loved ones is called:

1. Bereavement
2. Mourning
3. Compliance
4. Grief

**Testbook Solution** Correct Option - 4

---

**Que. 70** Chemical formula for water?

1. H<sub>2</sub>O
2. N<sub>2</sub>O
3. CO<sub>2</sub>
4. HO<sub>2</sub>

**Testbook Solution** Correct Option - 1

---

**Que. 71** Surgeon after surgery discard the gloves in red colour bin. Choice the option according to question?

1. Surgeon should discard in yellow bin
2. Surgeon discarded in right colour bin
3. Surgeon should discard in blue bin
4. Surgeon should discard in black bin

**Testbook Solution** Correct Option - 2

---

**Que. 72** Other name of cidex?

1. Amonium chloride
2. Formaldehyde
3. Isopropyl chloride
4. Glutaraldehyde

**Testbook Solution** Correct Option - 4

---

**Que. 73** Gloves paper box waste discarded in which colour of bag?

1. Yellow
2. Red
3. Black
4. Blue

**Testbook Solution** Correct Option - 3

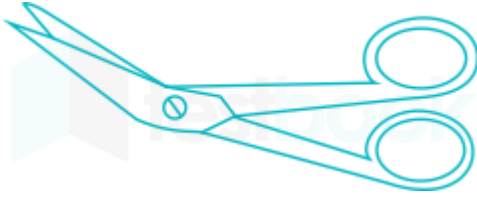

---

**Que. 74** Obstructed labour also known as?

1. Atocia
2. Dystocia
3. Precipited labour
4. Prolonged labour

**Testbook Solution** Correct Option - 2

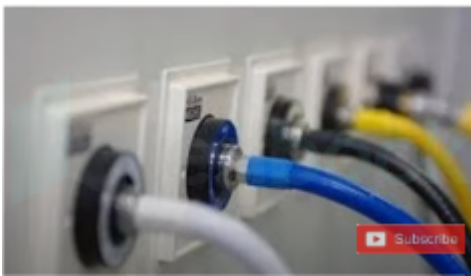

**Que. 75** Identify the instrument?

1. Episiotomy scissors
2. Artery forceps
3. allis forceps
4. Cheatle forceps

**Testbook Solution** Correct Option - 1

**Que. 76** Image in identify use of white colour pipe line?

1. Suction
2. Oxygen
3. Nitrous oxide
4. Nitrogen

**Testbook Solution** Correct Option - 2

**Que. 77** Self care deficit theory given by?

1. Hildegard Peplau
2. Virginia Henderson
3. Dorothea Orem
4. Dorothy Johnson

**Testbook Solution** Correct Option - 3

**Que. 78** Nasogastric suction cause which type of acid base imbalance?

1. Metabolic acidosis
2. Metabolic alkalosis
3. Respiratory acidosis
4. Respiratory alkalosis

**Testbook Solution** Correct Option - 2

**Que. 79** Vascular repair done by which type of sutures?

1. Silk suture
2. Polyester suture
3. Monofilament sutures
4. Ethibond sutures

**Testbook Solution** Correct Option - 3

---

**Que. 80** Identify image to give answer?

1. Feeding bag
2. TPN bag
3. IV bag
4. Urine bag

**Testbook Solution** Correct Option - 1

---

**Que. 81** Choose which of these is the net of a cube?

1. 
2. 
3. 
4. 

**Testbook Solution** Correct Option - 3

---

**Que. 82** Patient receiving mannitol drug, what is the role of nurse in patient with mannitol?

1. Monitor therapeutic value
2. Monitor urine output
3. Patient safety

4. Diet management

**Testbook Solution** Correct Option - 2

**Que. 83** ASHA in "A" stands for?

1. Accredited
2. Actor
3. Accesary
4. Automised

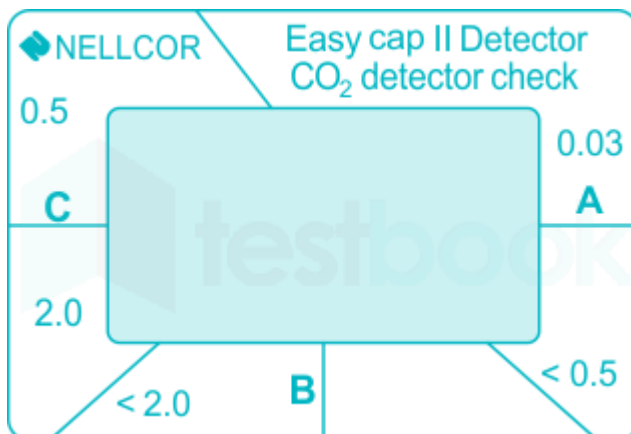

**Testbook Solution** Correct Option - 1

**Que. 84** The patient is getting potassium correction in 5% dextrose. What ECG changes will the nurse see to stop the infusion?

1. Prominant U wave
2. Tall Peaked T wave
3. Depressed ST segments
4. Shallow T wave

**Testbook Solution** Correct Option - 2

**Que. 85** Identify an image to give the answer?

1. Suction presser detector
2. HME filter
3. O<sub>2</sub> detector
4. ETCO<sub>2</sub> detector

**Testbook Solution** Correct Option - 4

**Que. 86** If your sister is half your age, in 10 years she will be  $\frac{3}{4}$ <sup>th</sup> of your age, what is her present age?

1. 5 year
2. 10 year
3. 15 year
4. 20 year

**Testbook Solution** Correct Option - 1

**Que. 87** The activity not recorded by pulse oximeter?

1. Pulse
2. Oxygen
3. ECG changes
4. SpO<sub>2</sub>%

**Testbook Solution** Correct Option - 3

---

**Que. 88** Regarding COVID 19 which one is not correct?

1. COVID-19 severity leads to ARDS
2. Belong to HIV/Hep category
3. Transmitted by aerosol and fomites
4. Sign and symptom of fever, cough

**Testbook Solution** Correct Option - 2

---

**Que. 89** Folic acid richest sources?

1. Milk
2. Meat
3. Green leafy vegetables
4. Banana

**Testbook Solution** Correct Option - 3

---

**Que. 90** A patient is very restless while receiving IV fluids to treat dehydration. The IV catheter has slipped out of the vein and fluid is delivered to the surrounding tissues under the skin, causing swelling. Which term best describes this occurrence?

1. Infection
2. Fluid overload
3. Infiltration
4. Extravasation

**Testbook Solution** Correct Option - 3

---

**Que. 91** Surgical safety check list in following action is not included?

1. Check correct patient
2. Correct surgical site
3. Check the blood sugar for all patient
4. Intake output for 24 hour

**Testbook Solution** Correct Option - 3

---

**Que. 92** What is possible complication if patient complain pain, redness, tenderness and warmth on IV site?

1. Infiltration
2. Phlebitis
3. Extravasation
4. Hematoma

**Testbook Solution** Correct Option - 2

---

**Que. 93** Lignocaine does not cause following symptoms?

1. Hypotension
2. Restlessness
3. Constipation
4. Nausea and vomiting

**Testbook Solution** Correct Option - 2

---

**Que. 94** The length of ryles tube (nasogastric tube)?

1. 70 cm
2. 90 cm
3. 105 cm
4. 140 cm

**Testbook Solution** Correct Option - 3

---

**Que. 95** Image to identify which type of amputation?

1. Transfemoral amputation
2. Transtibial amputation
3. Knee disarticulation
4. Ankle disarticulation

**Testbook Solution** Correct Option - 2

---

**Que. 96** The purpose of nominal scale?

1. Ratio
2. Range
3. Mean
4. Median

**Testbook Solution** Correct Option - 2

---

**Que. 97** Glutaraldehyde is used widely as a cold sterilant to disinfect a variety of heat sensitive instruments give the example?

1. Forceps

2. Scissors
3. Laparoscopic instruments
4. Patient bed

**Testbook Solution** Correct Option - 3

**Que. 98** The psychiatric client getting the antipsychotic drugs, and the client getting the symptoms of agitation, feeling of restlessness, dysphoria, and difficulty in sleeping, the group of this adverse effect is called as?

1. Akathesia
2. Tardive dyskinesia
3. Shakiness
4. Dyskinesia

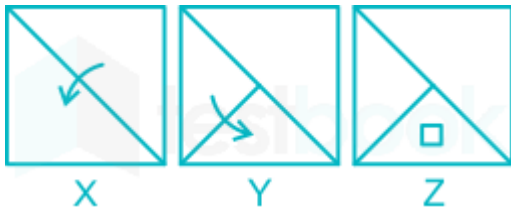

**Testbook Solution** Correct Option - 1

**Que. 99** Function of erythropoietin?

1. WBC synthesis
2. RBC synthesis
3. Platelet synthesis
4. Plasma synthesis

**Testbook Solution** Correct Option - 2

**Que. 100** Choice the correct option?

- 1.
- 2.
- 3.
- 4.

**Testbook Solution** Correct Option - 3

---

**Que. 101** Identify this image ?

1. Trecheostomy connector
2. HME filter
3. ET tube connector
4. Hemo filter

**Testbook Solution** Correct Option - 2

---

**Que. 102** BMI measure by ?

1. Weight in kg/height in meter<sup>2</sup>
2. Weight in kg/height in cm<sup>2</sup>
3. Weight in kg/height in meter<sup>3</sup>
4. Weight in kg/height in cm

**Testbook Solution** Correct Option - 1

---

**Que. 103** Acute leukemia the blood cells ?

1. Immature leukocytes
2. Immature reticulocyte
3. Immature platelets
4. Mature granulocyte

**Testbook Solution** Correct Option - 1

---

**Que. 104** Neck muscle contract, causing the head to twist to one side, choice the following option ?

1. Torticollis
2. Occulogyric crisis
3. Tardive dyskinesia
4. Pseudo parkinsonism

**Testbook Solution** Correct Option - 1

---

**Que. 105** A pregnant client asks the nurse in the clinic when she will be able to begin feel the fetus move. The nurse responds by telling the mother that fetal movements will be noted between which weeks of gestation ?

1. 6 & 8
2. 8 & 10
3. 10 & 12
4. 14 & 18

**Testbook Solution** Correct Option - 4

---

**Que. 106** How many students in the class do not have a mobile phone?

- 1) 30 students have a mobile phone in the classroom
  - 2) There are a total of 50 students in the classroom
1. Data in both the statements I and II is not sufficient to answer the question
  2. Data in statement I alone is sufficient to answer the question.
  3. Data in statement II alone is sufficient to answer the question
  4. The data given in both statements I and II together are necessary.

**Testbook Solution** Correct Option - 4

---

**Que. 107** Why in some Europe countries catgut suture material not used ?

1. Transmit bovine disease
2. Transmit HIV
3. Transmit malaria
4. Transmit HCV

**Testbook Solution** Correct Option - 1

---

**Que. 108** The infant undergone for VP (ventriculo peritoneal) shunt surgical procedure. On the assessment how will you assess the sign of increased ICP ?

1. Respiration
2. Blood pressure
3. Anterior fontanel assessment
4. Urine output

**Testbook Solution** Correct Option - 3

---

**Que. 109** After delivery uterus palpate at ?

1. Between symphysis pubis and umbilicus
2. Between symphysis pubis and xipod process
3. Between umbilicus and xiphoid process
4. At umbilicus

**Testbook Solution** Correct Option - 1

---

**Que. 110** Amphetamine used in ADHD for long term than cause ?

1. confusion
2. Increased appetite
3. Mania
4. Hypothermia

**Testbook Solution** Correct Option - 1

---

**Que. 111** Painful Bleeding at 34 week of gestation

1. Placenta previa
2. Placenta percreta
3. Abruptio placentae
4. Placenta accreta

**Testbook Solution** Correct Option - 3

---

**Que. 112** In placenta previa and bleeding of gestation investigation of choice ?

1. Perform USG
2. CT scan
3. MRI
4. Pelvic X-ray

**Testbook Solution** Correct Option - 1

---

**Que. 113** A 39 years old woman para 6 has presented with complaint of post coital bleeding for the three months. Your first investigation should be ?

1. Dilatation and curettage
2. Pap smear
3. Colposcopy
4. Laparoscopy

**Testbook Solution** Correct Option - 2

---

**Que. 114** Not recognize word affect wernickes area then damage which lobe of brain ?

1. Parietal lobe
2. Temporal lobe
3. Frontal lobe
4. Occipital lobe

**Testbook Solution** Correct Option - 2

---

**Que. 115** Long term use of frusemide (Lasix) cause following side effect ?

1. Hyperkalemia
