ead the short passage below and answer the questions that follow.

e begun to listen on a regular basis, you might still be frustrated by your limited
. Accept the fact that you are not going to understand everything. Stay relaxed
ot understand -- even if you continue to have trouble understanding for a while. Do
nto your native language. Listen for the gist of the conversation. Don't concentrate
you have understood the main idea(s). First, translating creates a barrier between the
e speaker, **consuming** time to translate rather than listening the content fully.
people repeat themselves constantly. By remaining calm, you can usually understand
ker had said.
ment about your friends, family, and colleagues. When they speak in your native
ey repeat themselves? If they are like most people, they probably do. That means
you listen to someone speaking, it is very likely that they will repeat the information,
cond, third or even fourth chance to understand what has been said. By remaining
yourself to not understand, and not translating while listening, your brain is free to
n the most important thing: understanding English in English. By listening to
enjoy, you are also likely to know a lot more of the vocabulary required.
