Nicaragua's Sheynnis Palcios Crowned 72nd Miss Universe 2023

Introduction

Nicaragua's Sheynnis Palcios, a 23-year-old TV host and model, achieved a significant milestone by being crowned **Miss Universe 2023**. The **72nd Miss Universe** event concluded with a grand ceremony at the Jose Adolfo Pineda Arena in San Salvador, El Salvador on **18th November 2023**.

Miss Universe 2023

Sheynnis Palacios, **23 years old**, hailing from **Nicaragua**, clinched the coveted **title of Miss Universe 2023**, making history as the **first Nicaraguan woman to win the crown**. A TV host and model, Palacios impressed the judges in the final round by expressing her admiration for **18th-century British philosopher Mary Wollstonecraft**, highlighting women's limitless possibilities. She dedicated her victory to aspiring girls and emphasized dreaming big with determination, perseverance and passion. Palacios, a seasoned pageant competitor, had previously won **Miss Teen Nicaragua 2016 and Miss World Nicaragua 2020**. She studied mass communications and played varsity volleyball at the Central American University, Managua.

The Winning Moment

The pinnacle of the event was reached when the reigning **Miss Universe 2022, R'Bonney Gabriel from the United States**, graciously placed the crown on **Sheynnis Palacios'** head. The stage lit up with applause and admiration from the thrilled audience as Palacios, resplendent in a meticulously embellished gown, embraced the spotlight, embodying elegance and grace in her triumphant moment.

Runner-Up Recognition

Adding to the international flair of the competition, **Anntonia Porslid of Thailand** earned the esteemed position of the **first runner-up** while **Australia's Moraya Wilson was crowned the second runner-up**. These placements not only recognized their individual beauty but also contributed to the celebration of global diversity within the Miss Universe pageant.

Global Participation

In the grandeur of the **72nd Miss Universe pageant**, contestants hailing from **84 countries and territories competed ardently**, showcasing their unique blend of beauty, intelligence and talent. Notably, **Pakistan made its debut on the Miss Universe stage this year**, underlining the pageant's commitment to fostering inclusivity and representation on a worldwide scale.

Indian Representation

The vibrant and culturally rich representation of India was carried forward by **Chandigarh-born Shweta Sharda**, who made the country proud by **securing a spot among the top 20 finalists**. Sharda's participation not only added a touch of Indian grace to the global stage but also highlighted the diverse and multifaceted qualities of women worldwide.

Transwomen Contestants in Miss Universe 2023

Rikkie kolle, 22 years old, crowned **Miss Netherlands**, advocates for equality and trans rights. **Marina Machete, a flight attendant, won Miss Portugal 2023**, breaking barriers in the history of **Miss Universe 2023**. Both pioneers have messages of resilience, love and kindness, marking historic inclusion as the **first transwomen contestants in the 72nd Miss Universe**, promoting diversity and empowerment.

The 72nd Miss Universe Event

The **72nd Miss Universe pageant** concluded at the **Jose Adolfo Pineda Arena in San Salvador, El Salvador on 18th November 2023**. This event was elevated to greater heights by the dynamic hosting duo of American television personality **Jeannie Mai and Miss Universe 2012 Olivia Culpo**. Their stage presence, along with the contributions of American television presenter Maria Menounos, ensured that the event was not merely a competition but a grand spectacle that captivated the global audience.

Australia Won the ICC Cricket World Cup 2023 by 6 Wickets

ICC Cricket World Cup 2023, Australia has lift the world cup trophy by defeating India with a convincing 6-wicket margin. Australia reached the target in 42.5 overs with six wickets in hand. Australia faced an early setback in the **ICC Cricket World Cup 2023 final** when David Warner (7) fell to Mohammed Shami, and later, Jasprit Bumrah dismissed Mitchell Marsh (15) and Steven Smith (4). At 47 for 3, the team was in a precarious position.

However, **Travis Head (137)** and Marnus Labuschagne (58 not out) demonstrated remarkable poise, constructing a game-changing partnership of 196 runs. This resilient effort not only put Australia in a commanding position but also paved the way for their sixth World Cup title triumph. With this win Australia has won the World Cup title 6 times viz. **1987, 1999, 2003, 2007, 2015 and 2023**.

Earlier, fast bowler Mitchell Starc took three wickets as Australia dismissed **India for 240** in the World Cup final in front of nearly 130,000 fans in Ahmedabad on November 19.

Australia's **Travis Head** was declared the **Player of the Match in his side's 2023 ODI World Cup final** win against India in Ahmedabad. The Australian opener top-scored for his side in a 241-run chase, with a 120-ball 137.

7 Comprehensive Changes in Senior Citizens Savings Scheme (SCSS)

In a significant move aimed at providing enhanced flexibility and benefits to senior citizens, the **Department of Economic Affairs (DEA)** under the Ministry of Finance has notified seven key changes in the **Senior Citizens Savings Scheme (SCSS)**. This government-sponsored savings instrument, designed for individuals aged 60 years or employees aged 55 years or more but less than 60 years, has undergone substantial modifications, as outlined below:

1. Extended Time for Investing Retirement Benefits:

Individuals aged above **55 but below 60 now** have a generous **3-month window** to invest in SCSS following receipt of retirement benefits. This is a departure from the previous requirement of investing within 1 month.

2. Investment by Spouse of Government Employee:

Spouses of government employees are now permitted to invest the financial assistance amount in the SCSS, broadening the scope of eligible investors.

3. Broadened Definition of Retirement Benefits:

The definition of retirement benefits has been explicitly outlined to include various payments received due to retirement or superannuation. This encompasses provident fund dues, gratuities, commuted pension values, leave encashment, and other retirement-related benefits.

4. Deduction on Premature Withdrawal:

Norms on premature withdrawals have been relaxed. A **1% deduction of the deposit** will be applied if the account is closed before the completion of **1 year of investment**. This marks a departure from the previous practice of recovering interest paid on premature withdrawals.

5. No Limit on the Extension of SCSS:

Account holders can now extend their SCSS accounts for multiple blocks of **3 years each**. Prior to this change, extension was allowed only once. Each extension requires a separate application.

6. Interest on Extended Deposits:

When extending the SCSS account on maturity, the deposit will earn the interest rate applicable on the date of maturity or the date of the extended maturity, providing more favorable terms for account holders.

7. Maximum Deposit Amount:

The maximum deposit limit for SCSS has been raised to **Rs 30 lakh from Rs 15 lakh**, effective from April 1, 2023. This aligns with the announcement made in Budget 2023.

About SCSS:

- Launched in 2004, SCSS is tailored for senior citizens, offering them a secure investment avenue and a regular income stream.
- The scheme provides a competitive interest rate, currently set at **8.20% per annum, compounded quarterly.**
- SCSS is eligible for tax deductions under Section 80C of the Income Tax Act, 1961, with a maximum deduction limit of **Rs 1.5 lakh per annum.**
- It is one of the nine small savings schemes offered by the government, including **PPF, SSY, POMIS, NSC, KVP, POTD, APY, and PMVVY.**
- These amendments to the SCSS aim to address the evolving needs of senior citizens, providing them with improved financial options and ensuring the scheme remains a viable and attractive investment choice.

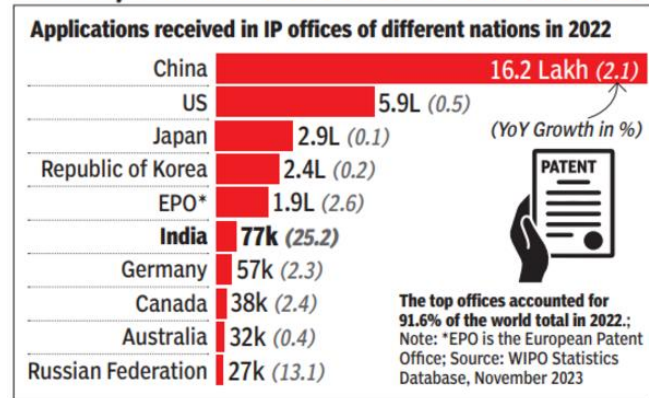

World Intellectual Property Indicators Report 2022: Global Patenting Activity Hits Record High

In 2022, the global landscape of intellectual property (IP) experienced significant changes and trends, as outlined in the **World Intellectual Property Indicators (WIPI) report.** While trademark and design applications dropped, patent filings saw an unprecedented surge, driven primarily by innovators from **India and China.** This article will provide insights into the key findings and trends from the WIPI report.

Patent Filings Reach New Heights

In 2022, the world witnessed an impressive surge in patent applications, marking the third consecutive year of growth. Innovators worldwide submitted a staggering 3.46 million patent applications, demonstrating a remarkable global interest in protecting intellectual property.

Indian, Chinese Innovators Fuel Growth

Leading Countries in Patent Filings

The top countries contributing to this patenting boom included China, the United States, Japan, the Republic of Korea, and Germany. **China maintained its dominant position,** accounting for nearly half of all global patent applications. However, the country's growth rate experienced a decline from 6.8% in 2021 to 3.1% in 2022. In contrast, **India stood out with an exceptional growth rate** of 31.6%, extending an impressive 11-year streak of growth, unparalleled among the top 10 filers.

Challenges Loom for the IP Ecosystem

Despite this remarkable growth in patent applications, the **WIPO Director General, Daren Tang,** expressed concerns about geopolitical instability and an uncertain economic outlook that could impact the global intellectual property ecosystem. These factors could potentially affect the future growth of IP filings.

Asia Dominates IP Filings

Continuing a long-term trend, the majority of IP filing activity occurred in Asia. In 2022, Asia accounted for 67.9% of global patent filings, 67.8% of trademark applications, and 70.3% of industrial design filings, reaffirming the region's central role in the global IP landscape.

Patent Filings by Residents of China and India

Chinese residents led the way with around 1.58 million patent applications in 2022, both domestically and internationally. Following China were the United States, Japan, the Republic of Korea, and Germany. China, the Republic of Korea, and the United States saw increases in their patent applications, while Germany and Japan experienced declines. Notably, **India reported substantial growth in patent filings,** along with Switzerland, Austria, and the United Kingdom.

Trademark Applications Experience a Downturn

In contrast to patent filings, trademark applications faced a downturn in 2022, with a 14.5% decrease in application class counts. This drop followed the exceptional growth in 2020 and 2021, influenced by the COVID-19 pandemic, which accelerated changes in work and lifestyle, leading to the introduction of new goods and services.

Trademark Filings by Leading Countries

China led the way in trademark filings with a combined count of around 7.7 million classes, followed by the **United States, Türkiye, Germany, and India.** However, filings from 14 of the top 20 countries experienced a decrease in 2022, with China's filings declining by nearly 21%.

Trademark Growth in Some Countries

Despite the overall decrease, trademark filing grew in six of the top 20 countries, with some recording double-digit growth. Countries like the Russian Federation, Türkiye, and Indonesia experienced notable growth. This growth was driven by both domestic and international filing activities.

Industrial Design Applications Experience a Decline

In 2022, there was a 2.1% decrease in industrial design applications, with a total of 1.1 million applications containing approximately 1.5 million designs. China was the leading country in terms of design count, followed by Türkiye, Germany, the United States, and the Republic of Korea.

Growth in Industrial Design in Select Countries

While most of the top 20 origins saw a decrease in design count, countries like **Türkiye, Brazil, India, Italy, and Switzerland experienced growth.** Additionally, several low- and middle-income economies beyond the top 20 origins, such as Bulgaria, Morocco, and Indonesia, reported high annual growth rates in 2022.

About WIPO

The **World Intellectual Property Organization (WIPO)** is the global forum for intellectual property policy, services, information and cooperation. A specialized agency of the United Nations, WIPO assists its 193 member states in developing a balanced international IP legal framework to meet society's evolving needs. It provides business services for obtaining IP rights in multiple countries and resolving disputes. It delivers capacity-building programs to help developing countries benefit from using IP. And it provides free access to unique knowledge banks of IP information.

Promoting Transparency with Mera Bill Mera Adhikaar Scheme

- The **"Mera Bill Mera Adhikaar"** (MBMA) scheme, launched by the **Central Board of Indirect Taxes and Customs (CBIC)** on **September 1, 2023**, has gained significant momentum in promoting transparency and accountability in business transactions.
- This initiative encourages citizens to **request a bill from traders or shopkeepers** when making a purchase. Smt. Nirmala Sitharaman emphasized that it is not only the right of the consumer to receive a bill but also the duty of the trader or shopkeeper to issue one.

Rewarding Transparency: Cheque Awards for MBMA Participants

- A noteworthy highlight of the event was the presentation of **Rs 10 lakh cheque awards to six customers** who actively participated in the Mera Bill Mera Adhikaar scheme.
- These winners **uploaded their valid GST bills on the app after making a purchase**, demonstrating their commitment to promoting transparency and ensuring that their transactions are accurately documented.
- Such incentives aim to motivate more individuals to request bills and actively engage in the MBMA scheme, further strengthening the culture of generating invoices during transactions.

Gujarat Leading the Way

- During her address, Union Finance Minister Smt. Nirmala Sitharaman **applauded Gujarat for taking the lead in establishing these GST Seva Kendras**, which she believes will serve as a role model for other states to follow.
- She noted that the implementation of GST was met with initial concerns, but by prioritizing the interests of the people and through collaborative efforts with members of the GST Council in every state, the dream of **"One Nation, One Tax"** envisioned by Prime Minister Shri Narendra Modi has become a reality.

Kozhikode and Gwalior Join UNESCO Creative Cities Network

In a recent announcement, UNESCO welcomed 55 new cities into its **Creative Cities Network (UCCN)**, which focuses on promoting creativity as a strategic factor in urban development. Notably, two Indian cities, **Kozhikode and Gwalior**, made their mark by joining this esteemed network.

Kozhikode: The City of Literature

Historical Milestone:

Kozhikode, situated in Kerala, stands out as the first Indian city to be designated as the **‘City of Literature’** by UNESCO, marking a historic achievement.

Cultural Hub for Literature:

The city has a longstanding tradition of hosting literary events, including the Kerala Literature Festival, one of the largest literary gatherings in Asia, which showcases Kozhikode as a vital center for intellectual exchange and literary discussions.

Library Abundance:

Kozhikode’s literary commitment is evident through its 500-plus libraries, highlighting its dedication to knowledge dissemination and fostering a culture of reading.

Home to Literary Luminaries:

The city is also a nurturing ground for renowned writers like S. K. Pottekkatt, Thikkodiyan, and P. Valsala Sanjayan, along with a vibrant community of poets, scholars, and publishers contributing to the richness of Malayalam literature and culture.

Gwalior: The City of Music

Honoring Musical Heritage:

Gwalior, located in Madhya Pradesh, has earned the distinction of being designated as the **‘City of Music’** by UNESCO, following in the footsteps of Varanasi, which received this recognition in 2015.

Birthplace of Tansen:

Gwalior is widely recognized as the birthplace of Tansen, one of India’s greatest musicians and composers, who was among the **‘Navratnas’** (nine jewels) in the court of Emperor Akbar, contributing significantly to Indian classical music.

Gwalior Gharana:

The city is the cradle of the Gwalior Gharana, the oldest and most influential school of Hindustani classical music, shaping the musical heritage of the region.

Celebrating Music:

Gwalior hosts the annual Tansen Sangeet Samaroh, one of India’s largest music festivals, attracting music enthusiasts and artists from across the country and abroad, underscoring the city’s deep-rooted musical traditions.

“Vision India@2047: Transforming India into a Developed Nation by 2047”

The Indian government is working on a comprehensive national vision plan, known as **‘Vision India@2047’**, aimed at transforming the country into a developed nation by **2047**. The plan is designed to prevent India from falling into the middle-income trap and focuses on various aspects of **economic and social development**.

Vision India@2047: Key Objectives and Timeline

Growth path

What does the future hold? Scenario building for macroeconomic indicators

Indicator	Units	2030	2040	2047
GDP at current prices	₹ trillion	609.04	1,759.79	3,604.94
Per capita GDP at current prices	₹	4,02,008	10,93,037	21,84,812
Exports	\$ trillion	1.58	4.56	8.67
Imports	\$ trillion	1.88	5.92	12.12
Investment	₹ trillion	195.5	591.1	1,273.40
Savings	₹ trillion	207.8	649.4	1,339.70

- **Objective:** The primary objective of the plan is to ensure India’s development into a developed nation by 2047 and avoid the middle-income trap, which has affected several countries at similar stages of development.
- **Leadership:** Niti Aayog, a government think tank, has been working on this plan for nearly two years. It was presented to Cabinet Secretary **Rajiv Gauba** in October.
- **Consultation:** In November, consultations will be held with thought leaders, including prominent corporate figures such as **Tim Cook, Sundar Pichai, Gautam Adani, Mukesh Ambani, K.M. Birla, N. Chandrasekharan, and Indra Nooyi**, to gather their insights and expertise.
- **Draft Plan:** The draft version of the plan is expected to be ready by December. Several Indian states are also in the process of preparing their own development roadmaps.

Economic Targets

- **Economic Growth:** The plan envisions making India a **\$30 trillion economy by 2047**, a significant increase from its current economic size. This ambitious goal aims to position India as one of the world’s leading economies.
- **Per Capita Income:** To ensure prosperity for its citizens, the plan targets a per-capita income ranging from **\$18,000 to \$20,000**. This represents a substantial increase from the current income levels.

Addressing Middle-Income Trap

- **Concern:** The plan acknowledges the risk of falling into the middle-income trap, where economic growth slows down significantly after reaching a certain income level. This issue is exemplified by countries like **Argentina** that have struggled to advance economically.
- **Challenges Overcome:** India has made progress in addressing longstanding challenges such as **poverty, infrastructure development** (roads, electricity, and water), and these issues are expected to be resolved in the coming years.
- **Next Level:** The plan’s focus is on propelling India to the next level of development to avoid stagnation in economic growth.

Regional Development and Disparities

- **Regional Cleavages:** The plan also aims to address regional disparities in economic development. While some parts of India are witnessing rapid growth, others, particularly in the **East and North**, are lagging behind.
- **Balanced Growth:** Achieving balanced and inclusive growth across all regions of India is considered crucial for the country’s overall development.

Global Dominance in Business

- **Global Presence:** The plan emphasizes the need for Indian firms to dominate various sectors on the **global stage**. Despite India’s economic growth, none of the world’s largest banks, contractors, legal, consultancy, or accountancy firms are from India.

- **Promoting Sectors:** The plan explores ways to promote certain sectors and companies to become global champions, thereby enhancing India’s presence in the global business landscape.

Skill Development and Global Demand

- **Skill Sets:** Developing the skill sets required by India’s young population to meet global demands is a priority. The plan recognizes the need to align educational and training programs with global market requirements.
- **Nursing Sector:** India’s potential to fulfill global demands, such as in the nursing sector, is noted. However, there is a need to ensure that educational institutions meet international standards to facilitate the export of skilled professionals.

Lionel Messi wins eighth Ballon d’Or 2023

Lionel Messi wins eighth Ballon d’Or 2023

Lionel Messi and Aitana Bonmati have been honored as the **2023 Ballon d’Or recipients**. Messi secures his eighth Ballon d’Or, setting a new record, thanks to his pivotal role in leading Argentina to their first World Cup victory since 1986. This remarkable achievement places Messi three Ballons d’Or ahead of his rival Cristiano Ronaldo, who last won the award in 2017. Messi has now been a top-three finalist for this prestigious accolade a total of 14 times, with five instances as the runner-up.

Before this, Messi’s teammate in the World Cup-winning Argentine squad, Emiliano Martinez, was recognized with the Lev Yashin Award for the world’s best goalkeeper. Aitana Bonmati, a key player in Spain’s Women’s World Cup victory and a Barcelona midfielder, claimed the women’s Ballon d’Or.

Messi, who secured his inaugural Ballon d’Or in 2009 and held a four-year consecutive streak until 2012, was the runner-up to Haaland at the UEFA awards back in August.

COP28: A Comprehensive Guide to Key Information

What is COP28?

COP28 is the **28th Conference of the Parties (COP) to the United Nations Framework Convention on Climate Change (UNFCCC)**. It is a global summit where world leaders, policymakers, scientists, and activists come together to discuss and take action on climate change. COP came into existence in 2010. It facilitates the exchange of best practices and innovations across vital sectors crucial to decarbonisation efforts in the areas of energy, transport, buildings, industry, finance and nature.

The COP is a crucial annual gathering where world leaders, policymakers, scientists and activists convene to find out solution to the growing challenges of climate change.

- The COP meetings act as the decision-making body of the UNFCCC in order to address the climate change.
- COP28, the 28th edition of this significant assembly, marks another pivotal moment in the ongoing fight against climate change.

Objectives of COP28

The main objectives of COP28 are to:

- Limiting the increase in global temperature to 1.5 degrees Celsius.
- Assisting the communities who are most vulnerable to the consequences of climate change.
- Achieving net-zero emissions by 2050. "Net-zero emissions by 2050" aims to balance the release of greenhouse gases into the atmosphere with their removal through human-made or natural processes by 2050.

The term "climate change" describes notable and persistent alterations to the Earth's long-term climate patterns, usually spanning decades to millions of years. These changes include differences in temperature, precipitation, wind direction, and other Earthly climate factors.

Achievements of COP

COP has already achieved a number of important milestones, including:

- **The Kyoto Protocol:** This international treaty was established in 1997 and set binding targets for industrialized countries to reduce their greenhouse gas emissions.
- **The Paris Agreement:** This agreement was adopted in 2015 and aims to limit global warming to well below 2 degrees Celsius, preferably to 1.5 degrees Celsius, compared to pre-industrial levels.

Challenges

Despite the progress that has been made, there are still a number of challenges that need to be addressed, including:

- **The need for more ambitious emission reduction targets**
- **The need for more financial support for developing countries**
- **The need for more innovation in clean energy technologies**

Initiatives by India

Despite not having legally binding emission reduction targets, India has been actively engaged in addressing climate change and implementing measures to curb greenhouse gas emissions. Prime Minister Narendra Modi articulated “Panchamrit” on India’s climate action at the 26th session of the COP 26 held in Glasgow, United Kingdom. This Include commitment towards• Reaching 500GW Non-fossil energy capacity by 2030.

- Sourcing 50 % of its energy requirements from renewable energy by 2030.
- Reduction of total projected carbon emissions by one billion tonnes from now to 2030.
- Reduction of the carbon intensity of the economy by 45 per cent by 2030, over 2005 levels.
- To attain net zero emissions by 2070.

India has prioritized sustainable development projects like, renewable energy targets, promoting energy efficiency, implementing emissions reduction policies, to achieve its climate goals.
