7.5 million new cases of TB in 2022, shows WHO Global report

Context

TB remains the world's second leading cause of death from a single infectious agent, and global TB targets have either been missed or remain off track

Key points

- The reported global number of people newly diagnosed with TB was **7.5 million in 2022**.
- This is the highest number since WHO began global TB monitoring in 1995, above the pre-COVID baseline (and previous historical peak) of 7.1 million in 2019, and up from 5.8 million in 2020 and 6.4 million in 2021.
- **India, Indonesia and the Philippines**, which collectively accounted for nearly 60% of the reduction in the number of people newly diagnosed with TB in 2020 and 2021, recovered to above 2019 levels in 2022.

India has taken several measures to reduce tuberculosis (TB):

- **National Strategic Plan for TB Elimination:** Launched to end TB by 2025
- **Universal Drug Susceptibility Testing (UDST):** Ensures every diagnosed TB patient is tested for drug resistance before or at the start of treatment
- **Ni-kshay Mitra initiative:** Provides community support to patients and their families to improve treatment outcome
- **Ni-kshay Poshan Yojana:** Provides nutritional support to TB patients
- **Tuberculosis (TB) Mukh Bharat Abhiyaan:** Launched in 2021 under the NSP India 2020–25 for TB Elimination.

Aditya-L1 captures first glimpse of solar flares

Context

The **High Energy L1 Orbiting X-ray Spectrometer (HEL1OS) payload**, onboard the Aditya-L1 spacecraft, has captured the first glimpse of solar flares.

About Aditya L1

- The objective of Aditya L1 mission is to study the Sun's **Corona, Chromosphere and Photosphere**.
- In addition, it will study the particle flux emanating from the Sun, and the variation of magnetic field strength.

Massive displacement in Congo

Context

- The **UN International Organization of Migration (IOM)** reported that the number of people who have been internally displaced in the **Democratic Republic of Congo (DRC)** has **risen to 6.9 million**.

বাংলা

## Daily Current Affairs Encyclopedia

- In the eastern province of North Kivu, nearly a million people have been displaced due to the ongoing conflict with the rebel group, **Mouvement du 23 Mars (M23)**.

### Reasons for displacement

1. ethnic intolerance and insurgency.
2. the political uncertainty and lack of inclusive governance
3. regional tensions.
