## Daily Current Affairs Encyclopedia

- This ambitious project aims to develop a global digital infrastructure for transportation systems.
- MInT follows a unique "collaborate and compete" approach, bringing together industry leaders, government bodies, and academic researchers
- This collaboration will focus on creating the Bharat Multimodal Mobility Stack (BM3S), a digital foundation for intelligent transportation solutions. By fostering collaboration and competition, MInT hopes to find innovative solutions to the world's mobility challenges

Single-window guidance system to fast-track clearances for companies manufacturing EVs in TN

Context:

- The Tamil Nadu government has implemented a single-window guidance system to expedite the clearance process for companies setting up electric vehicle (EV) manufacturing units in the state.
- This system aims to streamline approvals by providing a central point of contact for various permissions required from different departments.
- This reduces bureaucratic hurdles and facilitates a faster setup time for EV companies, boosting the state's EV industry growth.
