## Daily Current Affairs Encyclopedia

surface currents, temperatures, wind speeds, and conditions like El Nino and La Nina.

- This information is crucial for various stakeholders including the Indian Navy, Coast Guards, and 26 nations bordering the Indian Ocean, enhancing preparedness against natural disasters like earthquakes and tsunamis.
- These efforts are part of broader collaborations with agencies like the India Meteorological Department (IMD) to enhance disaster management capabilities, including the development of **3D building maps for assessing flood risks in coastal areas prone to cyclones.**
